

GUARD DOGS

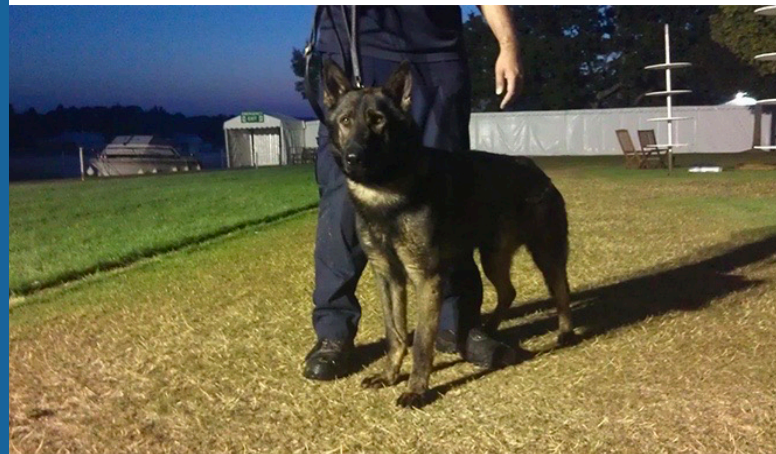

Our guard dog security services and patrols provide a physical deterrent, as well as powerful support in times of need. Canine companions can often detect the presence of intruders long before a guard or CCTV system. Our dog handlers are professionally trained and fully licensed to work as a team and receive the full back-up of our 24-hour manned control centre. Drug Detection and Explosives Dogs (Passive Dogs) This specialist taskforce can be employed at airports, railway stations and docks to deter the importation or trafficking of illegal substances or detect explosives and/or firearms. We employ ex-military and ex-police personnel, who have the experience and knowledge for such delicate deployments. The 'drugs dog team' can also be hired by licensed premises throughout the UK to detect and deter the use and sale of illegal substances on or around licensed premises.

Working With You

Event and Crowd Control Dogs, Guard dogs are vital when planning any indoor or outdoor event. Not only are the dogs a deterrent they are also a great benefit when controlling and managing large groups of people or areas. We can provide fully trained and licensed uniformed handlers and dogs for events large and small. Make sure you're kept safe and secure, call VIP Security today.
