

EVENT SECURITY

Our events team are also experts at managing the security for a wide range of events, festivals, concerts and sporting events. Our experienced team of professionals work in partnership with venues and event organisers, to ensure your special event runs smoothly. We'll ensure your venue or event is safe and secure thanks to our vast range of security services. Event Stewards, our team of event stewards will be the first point of call for attendees. At VIP we provide a friendly and helpful face to ensure your event is a big success. Stewards can manage access control, search areas, collect tickets, give direction and assist with emergency or evacuation situations.

Event Traffic Management, ensure your guests arrive without a fuss. Our team creates effective traffic management plans to maintain the flow of traffic, as well as organising road closures and diversions.

Uniformed Traffic Marshalls will maximise car parking space, and minimise the effect on the venue's surrounds, to make your event run smoothly.

Event Site Security, our team of site security guards can run regular patrols around your venue or marquee 24-7. Here we'll ensure your venue or structure is safe and secure. Guards are also able to film any incidents and tap into the latest technology to give you live reports on what area of your event area has been checked, and when. We can also provide external and mobile CCTV options.

Event Security Licensed Paramedics, Our SIA event security licensed paramedics are not only trained as frontline security operatives but are also fully trained and qualified paramedics. Offering clients personnel with a mixed skill set provides the very best service as well as a very cost-effective solution.

Working With You
